### FEEDING DIRECTIONS

Feed Honeydrive Platinum (HDP) 14% Horse Feed in conjunction with good quality hay to make a balanced ration and to maintain proper body condition of the horse. Maximum recommended intake of HDP 14% Horse Feed for an 1100 lb. horse is 8 lbs. per head per day. If higher levels of energy are needed, feed the 8lbs of HDP 14% plus oats or corn. Offer free choice loose salt to accommodate possible extra sodium needs due to excessive exercise. Fresh clean water should always be available. Honeydrive

Platinum 14% Horse Feed: A General Feeding Guide (1,100 lb. Horse)

Use Proper Body Condition As A Guide For Grain Feeding Levels.	Maintenance	2 lbs. /
hd./day	Lactating Mares	6 to 8 lbs. / hd. /day
